ABOUT ME

I’m a creative with a hands-on approach. Over the years, I’ve worked in fashion, events, real estate, and content — helping brands grow through visual direction, smooth execution, and a strong understanding of what works.

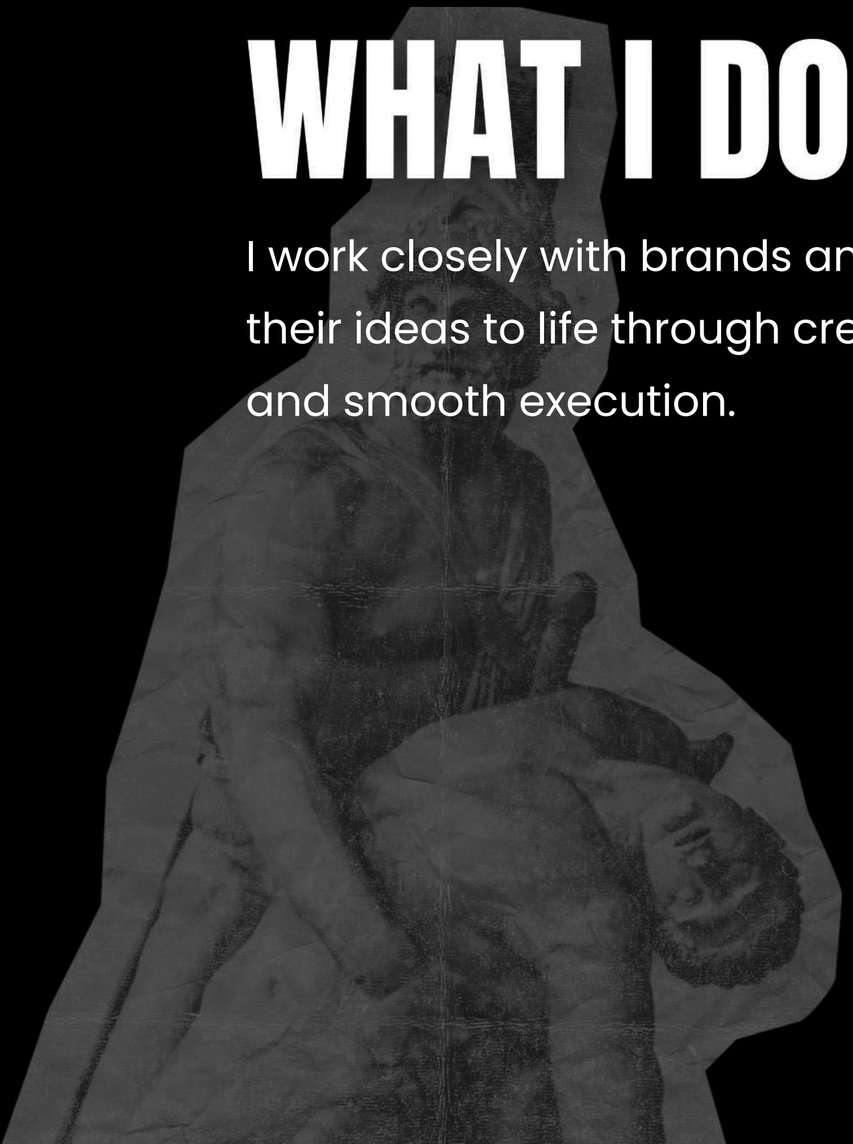

I’ve been part of brand launches, managed logistics for large events, created content using professional gear, and helped businesses shape their online presence. I enjoy being involved from the early ideas all the way to the final result. If you’re looking for someone who’s creative, reliable, and easy to work with, I’d love to be part of what you’re building.

FESTIVAL OF CREATIVITY 2024 - AMDT

Role: Event Coordinator

Helped manage one of Sri Lanka's biggest creative events.

I was involved in pre-event planning, scheduling, vendor coordination, decor, and on-ground execution. I worked with over 100 creatives, ensuring everything ran smoothly for the crowd, stage team, and brand partners.

CARRIAGE CLOTHING - SHOOT

Role: Creative Director

Led the full launch of the brand, building its identity and visual style from the ground up. I directed the brand shoot, styled content, oversaw design, and helped develop its old-money aesthetic. The brand made a strong entry into the fashion space with a clear message and look.
